Sir:

This amendment is filed in response to the Office Action dated February 13, 2002.

Please amend the above-identified application as follows:

IN THE CLAIMS:

Please enter amended claims 16 and 19 as follows:

16. (Amended) A combination of a visitor location register plus mobile switching center comprising:

a first interface toward a gateway switching center for receiving a request to establish a speech connection between a calling subscriber and a called subscriber,

a second interface toward a home location register for receiving an identity of the calling subscriber in connection with a request for routing information relating to the called subscriber; and

a third interface toward the called subscriber for establishing the requested speech connection between the calling subscriber and the called subscriber, and for transmitting the identity of the calling subscriber obtained from the home location register to the called subscriber.
